

HP RP5 Retail System Model 5810 (1D865PA)

Overview

Get the flexibility and expandability to control everything from the store floor to the back office with the HP RP5 Retail System, Model 5810, an all-around high-performer that meets the rigors of retail environment so you can focus on making sales.

Powered for performance.

Excel in even the most demanding environments with your choice of operating system, 4th generation Intel® Core™ processors,[1] and storage to help you take on every retail challenge.

Management and security made easy.

POS doesn't need to be complicated. Enjoy simple, low-cost management with built-in features that help ensure the security of your customer data and terminals.

Customize your perfect fit.

Tailor the system to your specific needs with legacy and evolving ports that support a wide range of retail peripherals,[3] and add-ons that offer true flexibility.

Trust your hardware.

In the demanding world of retail, you can't afford to slow down. Retail-hardened durability and an oversized cooling system help ensure you don't miss a beat.

[1] Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

[3] Optional features sold separately or as add-on features. See product QuickSpecs for exact compatibility.
